Corsair 760

“Oh. Now that’s a  
nice camper!”

180marine™ 

**FACT: Corsair has built over 700 24-foot trimarans. The 760 is the best of the best!**

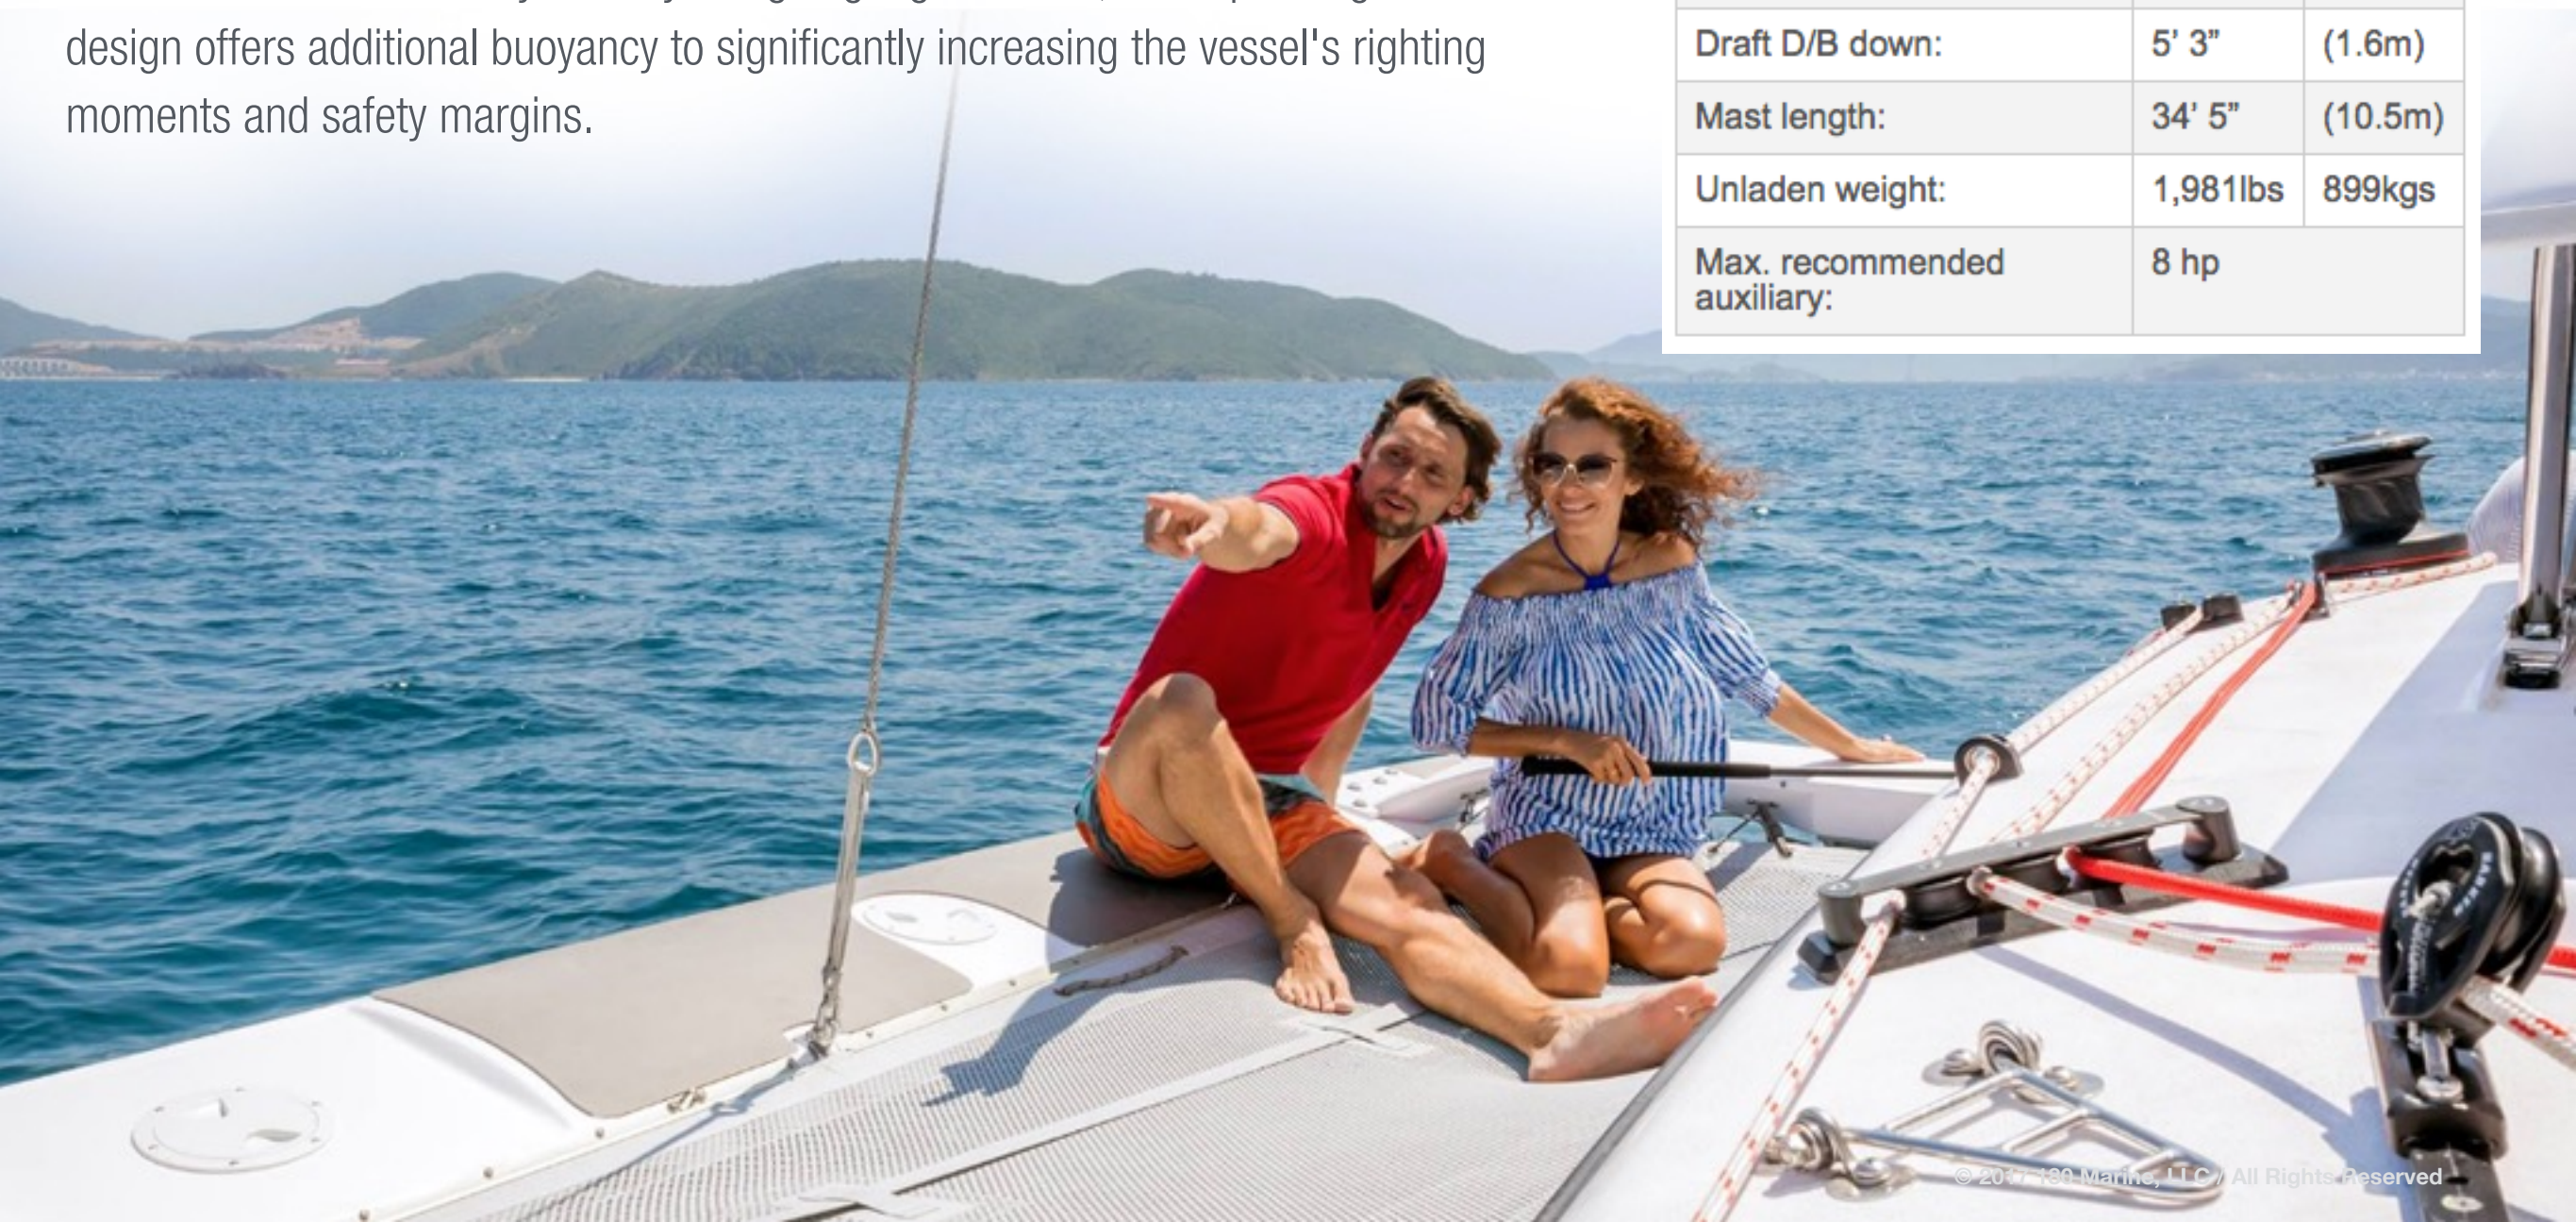

Introducing Corsair Marine's newest pocket cruiser, the Corsair 760. This 24-foot trailerable trimaran brings trailer sailing to the next level. Originating from the ever popular 24 and 750 range, this new model has received a radical redesign by our partners at Perus Yacht Design.

The 760 offers sailors more comfort, performance and safety than our previous designs. This has been achieved by cleverly designing high-volume, wave-piercing floats. The design offers additional buoyancy to significantly increasing the vessel's righting moments and safety margins.

#### 760 Specs

L.O.A.:	24' 3"	(7.39m)
L.W.L.:	23' 7"	(7.19m)
Beam:	17' 11"	(5.46m)
Beam folded:	8' 2"	(2.5m)
Draft D/B up:	1' 00"	(0.3m)
Draft D/B down:	5' 3"	(1.6m)
Mast length:	34' 5"	(10.5m)
Unladen weight:	1,981lbs	899kgs
Max. recommended auxiliary:	8 hp	

# Corsair 760

Superior safety is inherent in the design and construction of Corsair boats and it stems from the same features that make them sail flat and fast. Corsairs can't sink. In fact, with the hulls filled to the brim with water, the positive buoyancy of the materials of construction keep the vessel afloat even with all crew aboard.

The Corsair 760 feels and sails like boats twice its size, but it's affordably priced to own & maintain. Corsair resale value is legendary and will be one of the best new boat investments you can make today.

# Corsair 760 Highlights

## Incredibly Strong Beam Support

Beams are the same style as the Pulse 600 and better for deflecting water.

## Corsair 760 Acrylic Window Pop Top

Pop top hatch lifts up for full standing headroom...and it's multidirectional...so it can also slide forward, or be semi-raised. The pop-top has an acrylic window built in, allowing more light into the cabin.

## Upgraded Sliding Interior Galley

Galley unit slides out of the way when you need the shoulder room, like during a mid-day squall!

## Beautiful Modern LED Lighting

Completely new updated interior, no more dark, dank interiors. Easy to spend the evening inside.

Torqeedo Electric Motors

# Corsair 760 Optional

**Six-foot, six-pack, sun-tanned, amazon man**

Nope, he's not really needed. Opening the floats is easy with dynamic balance for one-person to fold or unfold.

## Professional support (not just your average dealer)

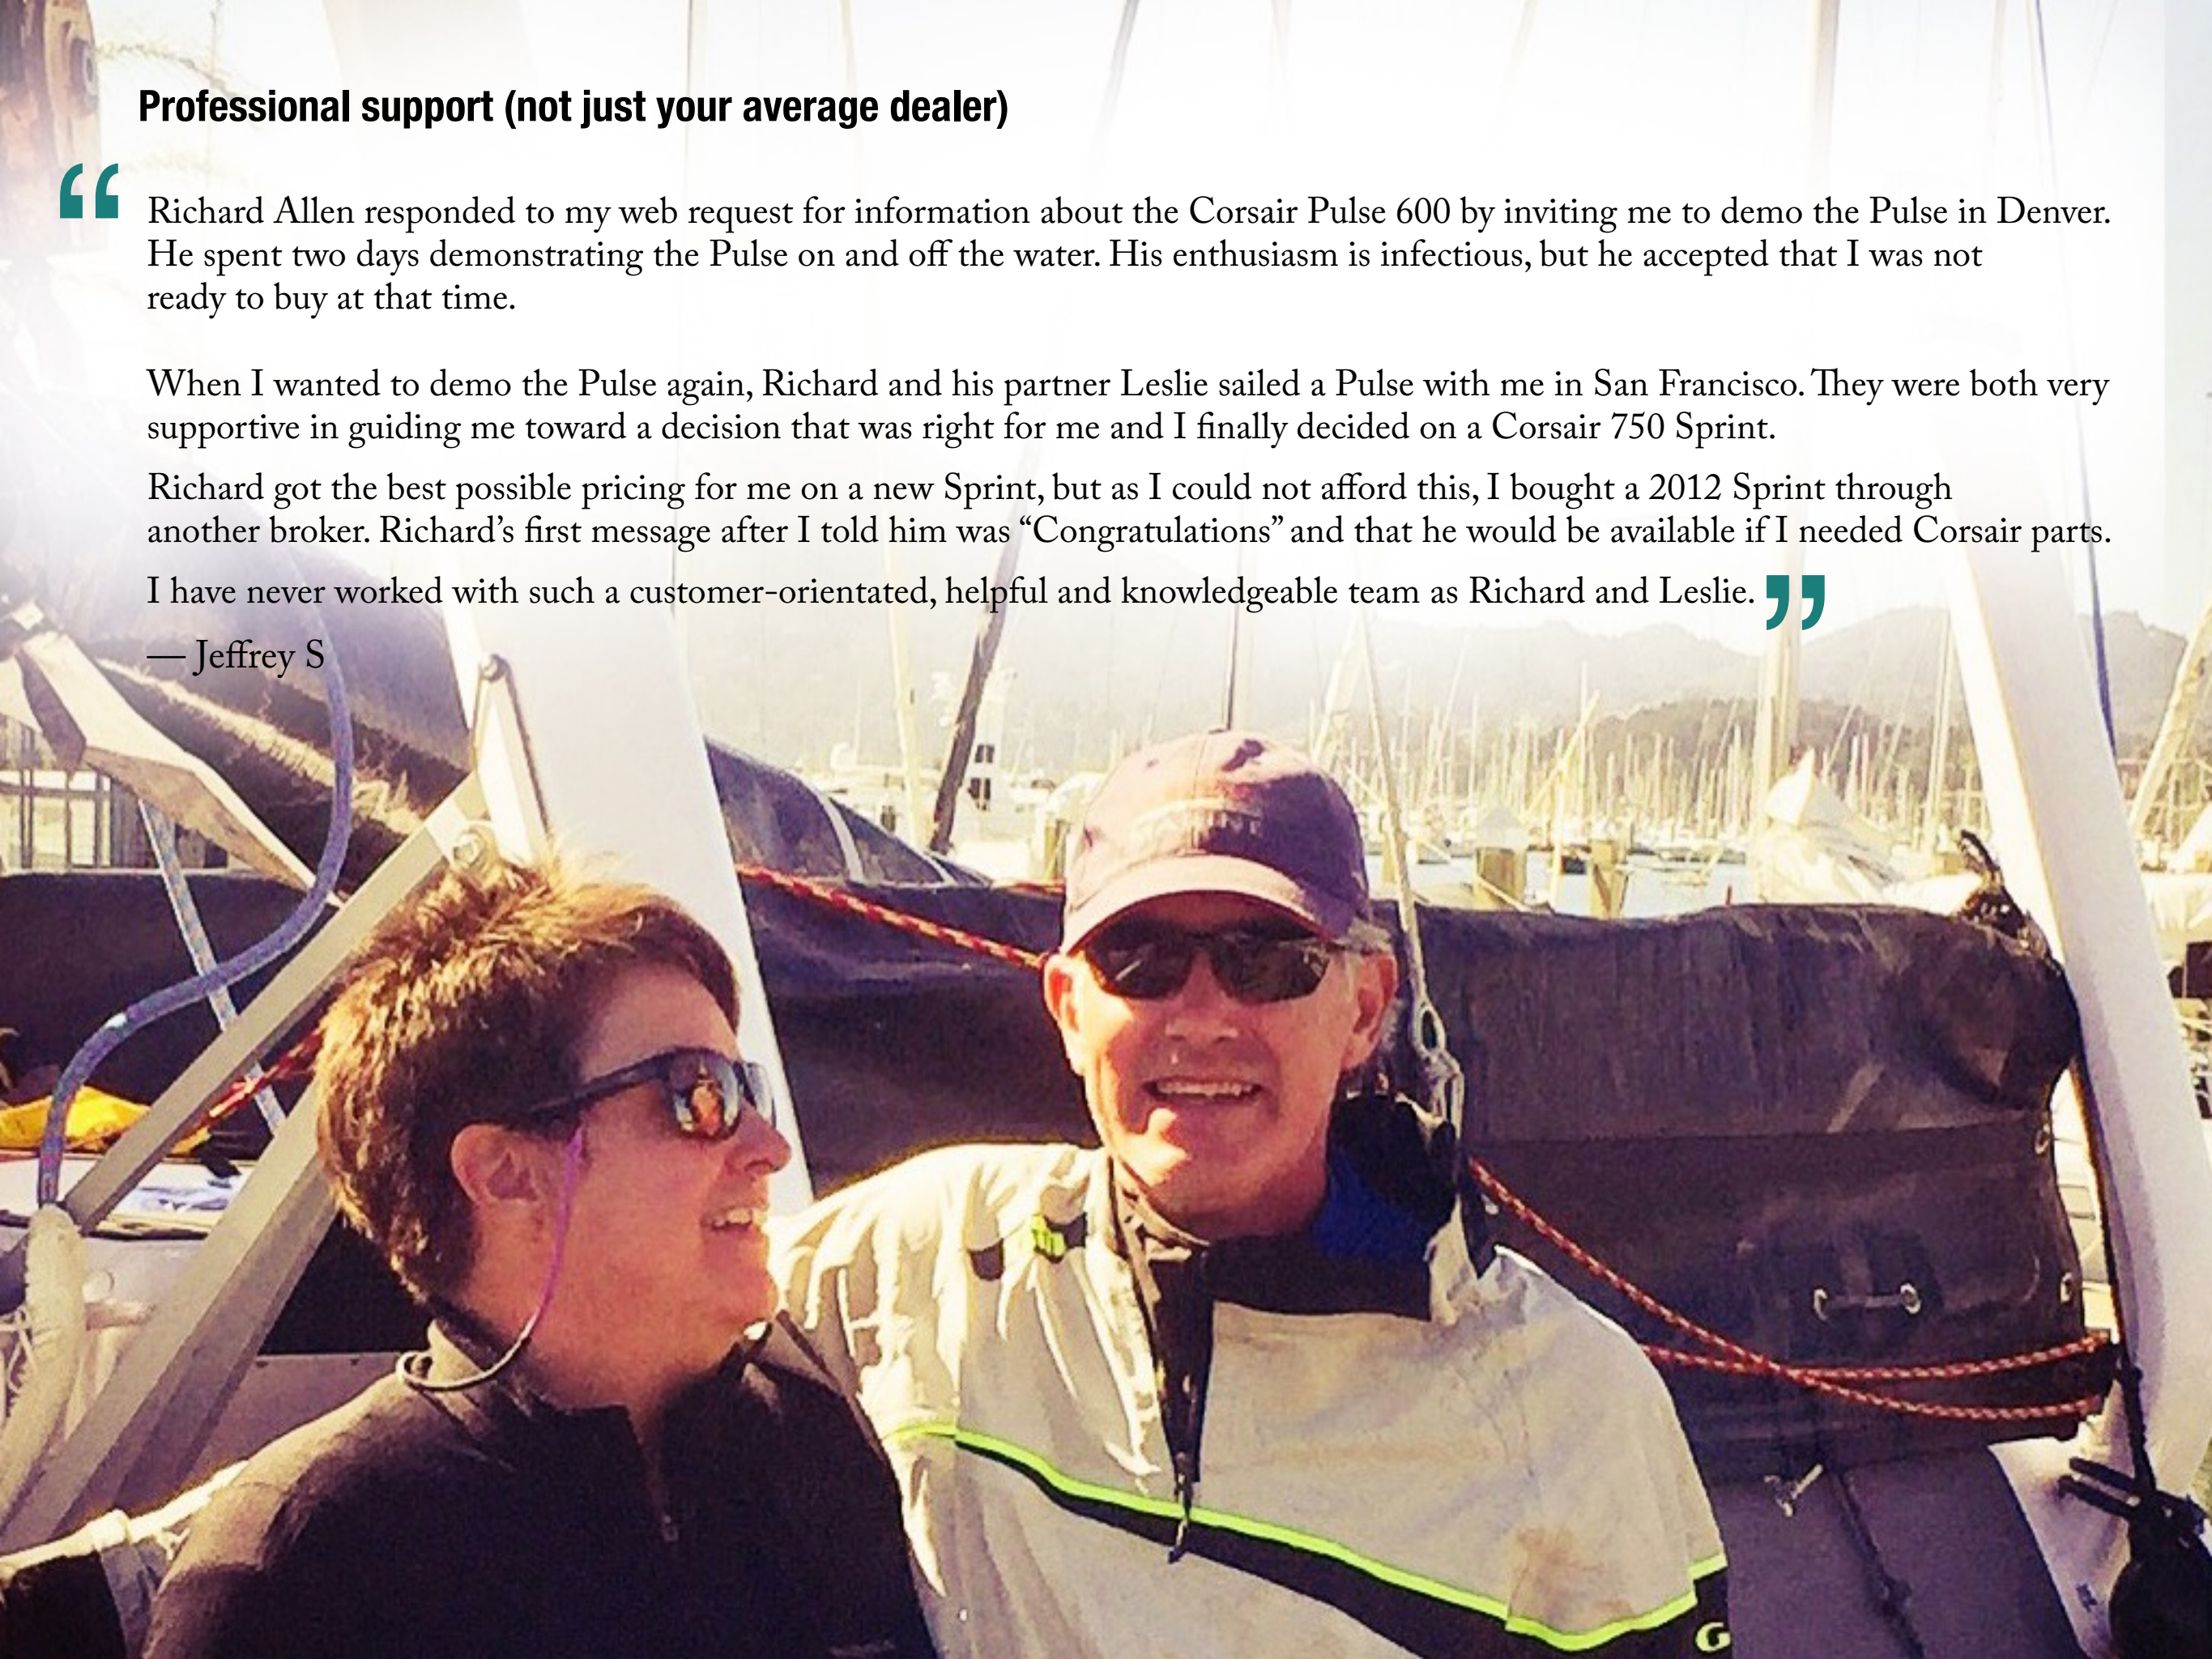

Richard Allen responded to my web request for information about the Corsair Pulse 600 by inviting me to demo the Pulse in Denver. He spent two days demonstrating the Pulse on and off the water. His enthusiasm is infectious, but he accepted that I was not ready to buy at that time.

When I wanted to demo the Pulse again, Richard and his partner Leslie sailed a Pulse with me in San Francisco. They were both very supportive in guiding me toward a decision that was right for me and I finally decided on a Corsair 750 Sprint.

Richard got the best possible pricing for me on a new Sprint, but as I could not afford this, I bought a 2012 Sprint through another broker. Richard's first message after I told him was "Congratulations" and that he would be available if I needed Corsair parts.

I have never worked with such a customer-orientated, helpful and knowledgeable team as Richard and Leslie. ”

— Jeffrey S

## The folks behind 180 Marine

180 Marine is the fastest growing Corsair Marine Dealer in the U.S., owned and operated by Richard Allen and Leslie Gabriel, long time Corsair trimaran racers, day sailors and cruisers. Few know more than Richard Allen about Corsair trimarans. Richard is U.S. Fleet Captain and Dealer for the Pulse 600, covering the Western United States. Most Corsairs are received and commissioned in Oakland or Long Beach California, then professionally transported, or picked up by each customer for the final sailing destination. 180 Marine is networked, and can help with finding a used Corsair when a new Corsair just won't work. We offer innovative and quality products that enhance your sailing experience on any Corsair. For instance, many owners like the new Torqueedo...on their Corsair.

Our team of trimaran sailors, with thousands of sea miles, is ready to bring you their most valuable experience. We race competitively every chance we get. The San Diego NOODS, San Francisco Bay Corsair Nationals, and Pensacola Corsair Nationals are only a few examples of recent events. Home base is Denver Colorado, where we can easily travel throughout the Western U.S.

**Midwest / Rocky Mountain Region / Southern California**
